INSTRUCTIONS

This is the second comprehensive listing of publications of the National Biological Service. Previously, the world-wide circle of readers received a semiannual listing of only technical series publications.

The publications are listed by category. An abbreviation at the end of each citation identifies the facility from which publications can be ordered. A list of the abbreviations and the mailing addresses of facilities starts on page 7. The list of the abbreviations is arranged alphabetically, and publications available from a facility are listed in the alphabetical order of the authors' names. Beginning on page 13 is a listing of previously announced publications.

HOW TO ORDER

Mark the publications you wish to receive on the order form, and mail or FAX the form to the appropriate facility.
